Clinical Trials Suggested Questions Guide

Important Note

If you are considering participating in a clinical trial, you should discuss your options with your doctor. This guide provides some questions you may want to ask your doctor as well as room for you to take notes.

Are there clinical trial options available to me based on my condition? If so,how do these options compare to obtaining treatment from a provider directly (i.e.,outside of a clinical trial)?

Notes: _____

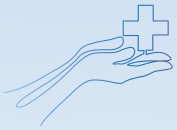

_____

What are the goals of the clinical trial?

Notes: _____

_____

Could you suggest any clinical trials for which I might be eligible?

Notes: _____

_____

Are these clinical trials available close to where I live or where I see my doctor?

Notes: _____

_____

What are the possible risks, side effects, and benefits of participating in a clinical trial?

Notes: _____

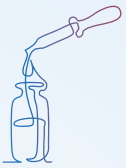

_____

What phase is this clinical trial and what does that mean?

Notes: _____

_____

How would my participation in the clinical trial be different from my current treatment?

Notes: _____

_____

Clinical Trials
Suggested Questions Guide

How long would I be expected to participate in the clinical trial?

Notes: _____

Does this clinical trial include the use of a placebo? If so, what are the chances I will get the experimental product?

Notes: _____

How will I know if the experimental product is working?

Notes: _____

If my participating in the clinical trial requires me to incur any costs, how do I find out if my insurance will cover the costs of my participation?

Notes: _____

Will there be any additional costs that I need to consider while I am participating in the clinical trial?

Notes: _____

If not now, under what circumstances would a clinical trial be an option for me?

Notes: _____

We defy limitation, so the others can too.

At our core is perseverance, a fierce determination to overcome any obstacle regardless of setbacks, on behalf of patients and their loved ones. We will not be bound by doing what's been done before. Instead, we free ourselves from preconceived notions to discover solutions that advance patient care. Our mission is clear: Otsuka-people, creating new products for better health worldwide.
